

NEW HAMPSHIRE.

ASSESSED VALUATION.

A general assessment of all taxable property in the state is made on April 1 of each year by the assessors of the several cities and the selectmen of the several towns, and comprises: real estate, including lands improved or unimproved and whether owned by residents or others, except as hereinafter stated; buildings, mills, carding machines, factory buildings, and machinery; wharves, ferries, toll bridges, locks and canals, and aqueducts, any portion of the water of which is sold or rented for pay; also the real estate of mining companies or of persons owning or discovering mines of gold, silver, lead, copper, iron, tin, mica, or zinc, independently of the existence of said mines, until such time as the proprietors of said mines or mining companies are able out of the profits of the business to declare dividends; also the real estate of railroads not used for the ordinary and usual purposes in operating the roads and all real estate so used for which no part of the capital was expended; personal property, including stock in public funds; stock in corporations in the state except manufacturing and railroad corporations; stock in corporations located out of the state owned by persons living in the state which is not assessed and taxed to the individuals owning the same by the town where such corporations are located; the surplus capital on hand of banking institutions; money on hand or at interest more than the owner pays interest for, including money deposits in any bank other than savings bank within the state, or loaned on any mortgage, pledge, obligation, note or other security, whether on interest or interest be paid or received in advance; stock in trade, whether of merchants, shopkeepers, mechanics, or tradesmen employed in their trade or business, reckoning the same at the average value thereof for the year; raw materials and the manufactures of any manufactory; wood, timber, logs, and lumber, manufactured or otherwise, if exceeding \$50 in value; fishing vessels, steamboats, horseboats, or other vessels owned by individuals and navigating the waters of the state, and seagoing vessels for the transportation of passengers or freight; carriages, if exceeding \$50 in value; horses, asses, and mules over 18 months old; oxen, cows, and other neat stock over 18 months old, and sheep and hogs over 6 months old.

The laws of the state specifically exempt from taxation houses of public worship, schoolhouses, seminaries of learning, and property of the state, county, or town, other than county and town poor farms; lots of land selected and purchased in the state by the United States for the purpose of erecting lighthouses or other public buildings, with the buildings thereon; reclaimed swamp or swale lands for a term of 10 years from the time when the improvement is made to the satisfaction of the selectmen of the town in which said lands are situated, provided the law shall not apply to lands adjacent to cities or villages which shall be so improved for the purpose of building lots or speculation; stock in public funds exempt from taxation by the laws of the United States; stock in corporations, if the nature and purposes of the corporation be such that no dividend of its profits is to be made, and 2 hogs to each family. In addition to these specific exemptions the laws provide that any town may by legal vote authorize its selectmen to hire money of individuals living in the town at a rate of interest not exceeding 5 per cent per annum, and exempt all moneys thus loaned from taxation; that any town may by legal vote exempt from taxation materials to be used in the construction of ships or vessels, and that any town may by legal vote exempt from taxation for a term not exceeding 10 years any establishment therein or proposed to be erected or put in operation therein and the capital used in operating the same for the manufacture of fabrics of cotton, wool, wood, iron, or any other material.

The state board of equalization, in addition to its duty of annually fixing the value of railroad, telegraph, and telephone companies once in 4 years, beginning in 1879, equalizes the local assessment, and then combines such equalized assessment with the value of railroad stock, right of way and buildings, deposits in savings banks, and shares of chartered stock insurance companies as a basis for the apportionment of state and county taxation.

The valuation herein reported is that assessed by the several cities and towns April 1, 1890, and equalized by the state board in December, 1890.

The state board in adjusting the local assessment, applies an increase or decrease, as in its judgment may be needed. In doing this the board deals only with the aggregate of real and personal property, not indicating to which class the increase or decrease is applied. This office has therefore applied one-half of such increase or decrease to each, as was done by the Tenth Census.

This assessment does not include the classes of property shown by the following table, either in 1880 or 1890, though taxes were levied thereon:

CLASSES OF PROPERTY.	1890	1880
Total	\$83,543,645	\$10,831,624
Deposits in savings banks (less the amount invested in real estate)	64,071,977	26,305,481
Capital of stock insurance companies chartered by state	1,305,000	250,000
Railroad companies	17,807,908	14,185,960
Telegraph companies	170,192	90,183
Telephone companies	128,568

The total of all kinds of property assessed would therefore amount to \$263,059,798 in 1890 and \$205,586,805 in 1880. This aggregate does not include for either year, however, the value of polls listed in the local assessment at \$100 each and amounting in 1890 to \$9,656,900.

AD VALOREM TAXATION.

The taxation herein reported is that levied upon the valuation locally assessed in 1890. While the state and county taxes are apportioned to the several cities and towns upon the basis of the combined equalized local assessment and the assessment of railroad stocks, right of way and buildings, deposits in savings banks, and shares of chartered stock insurance companies, such taxes are levied by the cities and towns upon their local assessment of real and personal property and polls, the cities and towns being specially empowered by statute to include all taxation in one levy.

The state also annually levies upon and collects directly from savings bank deposits, stock insurance, railroad, telegraph, and telephone companies a large amount of taxes, from which it distributes a considerable portion to the several cities and towns for general and school purposes.

The following table shows the amounts levied directly by the state in 1890 and 1880 upon the classes of property named and the amounts thereof credited to the cities and towns:

CLASSES OF PROPERTY.	AMOUNT LEVIED BY STATE.		AMOUNT CREDITED TO CITIES AND TOWNS.	
	1890	1880	1890	1880
Total	\$926,270	\$181,552	\$807,569	\$365,073
Deposits in savings banks and trust companies	640,720	263,055	640,720	263,055
Stock insurance companies	13,050	2,500	9,360	1,821
Railroad companies	268,019	215,095	157,480	100,197
Telegraph companies	2,553	902
Telephone companies	1,928

As in collecting this tax the state acted to a certain extent as agent for the minor divisions, the additional levy may be distributed as follows, the totals being the true levies for the years in question:

LEVIES.	1890	1880
Total	\$4,063,640	\$3,179,192
Levy as reported	3,137,370	2,697,640
State levy additional	118,701	116,479
Minor division additional	807,569	365,073

There is no state or county school tax, but included in the amount credited by the state to cities and towns is the "literary fund" set apart for school purposes, which in 1890 amounted to \$64,332 and in 1880 to \$23,912. The municipal levy for schools includes amounts specifically appropriated by cities and towns and taxes levied by school districts for the purpose of building or repairing schoolhouses.

The rate of poll tax is the same as the rate upon \$100 of the assessment determined by the assessors of cities and the selectmen of towns.

The state publishes no detailed report of the taxation of the several cities and towns showing the classification herein reported, and the information published has been obtained by direct correspondence with local authorities.

WEALTH, DEBT, AND TAXATION.

NEW JERSEY.

ASSESSED VALUATION.

The statutes provide that the assessor of every taxing district shall, between the 20th day of May and the 20th day of August of each year, take a true account and make out an exact list of the persons, lands, chattels, effects, and estates, including certainties made ratable by the law in that year, by which all assessments during the year shall be regulated and made.

Real estate includes all lands, all water power thereon, and all buildings affixed thereto, trees, mines, quarries, peat and marl beds, and all fisheries.

Personal property comprises goods and chattels of every description, including steamboats and other vessels, money debts due or owing from solvent debtors, public stocks, and stocks in corporations, whether such personal estate be within or without the state.

The following property is exempt from taxation: property and the bonds and other securities of the United States and the bonds and securities of the state which are by law exempt from taxation; the property of the counties, townships, cities, and boroughs of the state, and stocks and other personal estate owned by citizens of the state situate and being out of the state, upon which taxes shall have been actually assessed and paid within 12 months next before the day prescribed by law for commencing the assessment; all colleges, academies, or seminaries of learning, public libraries, schoolhouses, buildings erected and used for religious worship and the land whereon the same are situate necessary to the fair use and enjoyment thereof, not exceeding 5 acres for each one, the furniture thereof and the personal property used therein; the endowment or fund of any religious society, college, academy, seminary of learning, or public library, provided that no building so used which may be rented for such purposes and rent received by owner therefor shall be exempted; the stock of any corporation of the state, which by a charter or other contract with the state is expressly exempted from taxation; the stock of any corporation of the state, the capital whereof is made taxable to and against said corporation; pews in churches, graveyards, not exceeding 10 acres of ground, cemeteries, and all buildings erected thereon, and all buildings used exclusively for charitable purposes, with the land whereon the same are erected, and which may be necessary for the fair enjoyment thereof, and the furniture and personal property used therein; the funds of all charitable institutions and associations collected and held exclusively for the sick and disabled members thereof, or for the widows of deceased members, or for the education, support, and maintenance of the children of deceased members.

The assessors of the several taxing districts of each county are required to meet at the place of holding the court of common pleas in the county on the first Monday of September in each year for the purpose of equalizing the assessments of all property other than that used for railroad and canal purposes, which is annually assessed by the state board of assessors.

The taxable real and personal estate, whether owned by individuals or by corporations, is required to be assessed at its full and actual value.

The capital stock of certain companies, gross receipts of telegraph, telephone, express, and other companies, and gross premiums of insurance companies upon which the state levies ad valorem taxes for its own use are not included in the assessments reported, nor have the allowances for certain indebtedness been deducted from the assessments, as permitted by law, the gross assessment only being reported, as was done by the Tenth Census.

The assessment reported is that made in September, 1890, and does not include that of property used for railway and canal purpose, aggregating \$197,643,818. The assessment of such property for 1880 is estimated by the commissioner of railroad taxation to have been not less than \$130,000,000.

The aggregate of real and personal property, including railroad and canal property, taxable for state and local use, was therefore \$893,859,866 in 1890 and \$702,518,361 in 1880.

AD VALOREM TAXATION.

The taxation herein reported is that based upon the assessment for the year 1890, and embraces the state school, the county, and local levies. The state school tax was levied upon the basis of \$5 for each child of lawful school age in each county. This is the only state levy against the assessed valuation of real and personal property, as herein reported, the taxation necessary for the general purposes of the state being levied entirely upon railway, canal, insurance, and other corporation property and values.

For the counties of Essex, Ocean, and Sussex the levies upon taxing districts for the state school tax and for the county tax are not stated separately in the printed reports, and the returns from the minor divisions in these counties invariably embrace the amount of tax levied for these purposes in one sum under the head of "County tax". As it could not be apportioned by the local officers, it was approximated by this office, and is doubtless in almost every instance correct, as the total state school tax paid by the county was reported, thus making it possible to compute the average rate of levy for that purpose in each of these counties and taxing districts.

The whole amount of state school tax is returned to the counties, 90 per cent of the amount to the counties paying it and the remaining 10 per cent to the counties upon a pro rata basis. The state also appropriated in 1890 for school purposes \$100,000 from its general revenue.

There is no county school tax.

Local school taxation includes levies made by townships, cities, and districts for the maintenance of schools and the purchase of sites and erection of school buildings.

In addition to the taxation herein reported, the state annually levies upon the property used for railroad and canal purposes taxes for its own use and the use of the taxing districts within which such property is located. The total amount thus levied in 1890 for use of the state was \$988,219 and for taxing districts \$338,434, a total of \$1,326,653, which amount, added to \$12,776,872, reported in detail, makes the total levy for the year \$14,103,525.

The ad valorem levy on railroad and canal property in 1880 can not be accurately stated, the taxes not being separated from those levied upon gross receipts, and no change from the total for 1880, as reported at the Tenth Census, therefore can be made.

ASSESSED VALUATION OF PROPERTY TAXED AND AD VALOREM TAXATION, IN DETAIL: 1890.

a Coextensive with Newton township.

b Includes county road tax.

c Includes interest on county road bonds.

NEW MEXICO.

ASSESSED VALUATION.

The assessment of all taxable property is made annually as of March 1 by the county assessors. The assessment includes all real estate, personal property, and moneys, credits, investments in stocks and bonds, and capital employed in manufactures, subject to the following statutory exemptions: property of the United States and the territory; property of counties, cities, towns, and other municipal corporations when devoted entirely to public use and not held for pecuniary profit; all public libraries; the grounds, buildings, books, papers, and apparatus of literary, scientific, benevolent, agricultural, and religious institutions and societies devoted exclusively to the appropriate objects of these institutions and not leased or otherwise used with a view to pecuniary profit; mines and mining claims bearing gold, silver, and other precious or useful metal, but not the net product and surface improvements thereof, for a period of 10 years from the date of record of location thereof; ditches, canals, and flumes used exclusively for irrigating lands and industrial pursuits; cemeteries not held for pecuniary profit; the property of the head of a family not exceeding \$300 in value, and (subject to certain conditions) for every acre of forest trees planted and cultivated for timber and for every acre of fruit trees planted and suitably cultivated the sum of \$100 upon the owner's assessment for 10 years after each acre is so planted; and to aid and encourage construction of railroads in the territory, all the property of every kind and description of every corporation formed under the general railroad law of 1878 is exempt from taxation until the expiration of 6 years from and after the completion of its road or roads.

Every property owner is required to assist the assessor by listing under oath the different classes of his property and the value thereof. The law provides penalties for a failure to so furnish a list of property and for false and imperfect lists, and the assessor is required to change any list, either as to property or values, if in his opinion such list is incorrect, provided, however, that the amount or value of the property listed shall in no case be diminished.

The county commissioners of each county constitute a board of equalization for the annual revision, correction, and completion of the assessment rolls. On all appeals and complaints against the action of the assessor the decision of the board is subject to further appeal to the territorial board.

The territorial board of equalization, composed of the governor, auditor, and attorney general, annually equalizes the assessments as between the several counties and finally decides all appeals and complaints. The intent of the law is to secure the assessment of all property at its true value. An act of the legislative assembly passed in 1889 provides that the territorial board shall have no right nor shall it be proper to equalize the rate of assessment by fixing a minimum or maximum value to be placed on any kind or class of property, but all property must be assessed at its actual value only.

After certification of the action of the territorial board to the several counties and the final correction of the assessment rolls, all ad valorem taxation for all purposes, including municipal, is thereon extended.

The valuation herein reported is that assessed as of March 1, 1890, and subsequently equalized by the county and territorial boards of equalization.

The aggregate valuation of 1880, as reported at the Tenth Census, was \$11,363,406, exclusive of the 2 counties of Bernalillo and Lincoln, from which no returns were then received. Their valuation is estimated at \$3,311,803 for that period, making the total valuation \$14,675,209, which amount should be used in making comparisons with 1890.

AD VALOREM TAXATION.

The taxation herein reported is that levied in 1890.

The rate of territorial tax is 11.6 mills on each \$1 of valuation, and the additional rate of 0.5 mill is levied upon the valuation of cattle only for the county indemnity fund. Of the regular territorial rate of 11.6 mills, the rate of 3 mills is specifically levied for common school purposes. All county taxes are levied by the county commissioners. Up to and including the census year the school districts had no tax levying power. In addition to the ad valorem taxation for school purposes, the poll taxes, at \$1 each, are applied to the school fund in each county. Such poll taxes are not herein included, and the aggregate amount is unknown.

The valuation of the several counties and the taxation for territorial purposes are taken from reports of territorial officers and the county taxation and the valuation and taxation of municipalities from special returns to this office by county and local authorities.

The aggregate taxation in the territory in 1880, \$126,942, as reported by the Tenth Census, did not include taxation levied in the 2 counties of Bernalillo and Lincoln, estimated by this office at \$37,158, and which would make the total \$164,100.

NEW YORK.

ASSESSED VALUATION.

A general assessment of all taxable property, real and personal, is made between May 1 and July 1 in each year by the assessors chosen in each town and ward, and comprises: real estate, construed "to include the land itself above and under water; all buildings and other articles and structures, substructures, and superstructures erected upon, under, or above or affixed to the same; all wharves and piers, including the value of the right to collect wharfage, cranage, or dockage thereon; all bridges; all telegraph lines, wires, poles, and appurtenances; all surface, underground, or elevated railroads; all railroad structures, substructures, and superstructures, tracks, and iron thereon; branches, switches, and other fixtures permitted or authorized to be made, laid, or placed in, upon, above, or under any public or private road, street, or grounds; all mains, pipes, and tanks laid, or placed in, upon, above, or under any public or private street or place; all trees or underwood growing upon land; all mines, minerals, quarries, and fossils in and under the same, except mines belonging to the state"; personal property to include all household furniture, moneys, goods, chattels, debts due from solvent debtors, whether on account, contract, note, bond, or mortgage; all debts due by inhabitants of the state to persons not residing within the United States for the purchase of any real estate; all debts and obligations for the payment of money due or owing to persons residing within this state, however secured or wherever such securities shall be held; public stocks, stocks in moneyed corporations, and such portion of the capital of incorporated companies liable to taxation on their capital as is not invested in real estate; rents reserved in leases in fee or for 1 or more lives or for a term exceeding 21 years at such valuation as the interest of which at the legal rate shall produce a sum equal to the annual rents.

The following property is exempt from taxation: lands belonging to the United States and the state; buildings erected for the use of colleges, incorporated academies, or other seminaries of learning and in actual use for such purposes; buildings for public worship, schoolhouses, courthouses, and jails used for such purposes, the lots whereon such buildings are situated and the furniture belonging thereto; poorhouses, almshouses, houses of industry, and houses belonging to companies incorporated for the reformation of offenders, for the improvement of the moral condition of seamen, and the real and personal property used for such purposes belonging to or connected therewith; the real and personal property of public libraries; stocks owned by the state, by literary, or charitable institutions; the personal property of corporations paying state tax on their capital (from state tax); the real and personal property of all ministers or priests permanently disabled from performing their ministerial duties, or who have reached the age of 75 years, not exceeding \$1,500, provided the realty is actually occupied by said minister or priest; all lands held by agricultural societies and permanently used for show grounds; deposits in savings banks due to depositors; the accumulations in life insurance companies held for the exclusive benefit of the assured; the real and personal property of the Society of the New York Hospital from which no income is derived, so long as used for chartered purposes; vessels registered in the state and owned by any American citizen, association, or corporation incorporated under state laws and engaged in ocean commerce between the United States and foreign ports; the capital stock of franchises and earnings of all such corporations whose vessels are thus engaged for a period of 15 years, and all property exempt from execution.

All real estate and personal property liable to taxation is required by statutory provision to be assessed at its true value as if appraised in payment of a just debt due from a solvent debtor; the assessment roll, duly certified, to be delivered on or before the first day in September in every year by the assessors of each ward in the city of New York to the city clerk, and by the assessors of every other town or ward to the supervisor thereof, who shall deliver the same to the board of supervisors at their next meeting. The board of supervisors of each county, at their annual meeting, and the board of aldermen of the city of New York are required to examine the assessment rolls of the several towns and wards therein in order to ascertain if the valuations in each town or ward bear a just relation to the valuations of the other towns or wards, and may increase or diminish the

aggregate valuation of real estate in any town or ward to produce such just relation, in no instance, however, reducing the aggregate valuations of all the towns and wards as made by the assessors, and shall cause to be transmitted to the state controller a certificate of such aggregate valuations as corrected by them, showing separately the amount of real estate and personal property in each town or ward.

The state board of equalization, consisting of the commissioners of the land office and 3 state assessors, meet in the city of Albany on the first Tuesday in September of each year to examine and revise the valuations of real estate and personal property as returned to the state controller by the boards of supervisors of the several counties; they are empowered to increase or diminish the valuations of real estate in any county by such sum as in their opinion will produce a just relation between all valuations of real estate in the state, provided, however, that the equalized valuations in the aggregate shall not be less than the total valuations as returned by the boards of supervisors to the state controller.

AD VALOREM TAXATION.

The taxation herein reported for 1890 is that levied for the various purposes named upon the assessment of 1890.

The total assessment of real estate and personal property made by the local assessors and equalized by the boards of supervisors of the several counties and the board of aldermen of the city of New York (for said city) constitutes the basis of valuation on which taxes are levied for county, town, city, village, and district school purposes; the valuation of real estate and personal property as equalized by the state board of assessors forms the basis of the apportionment of taxation for state and state school purposes, and the amount to be raised by each county or city when determined by the state controller is certified to the county or city officials.

The aggregate valuation as equalized and fixed by the state board as the basis of the apportionment of the state taxes in 1890, as reported by the state controller, was \$3,683,653,062, upon which the total rate of taxation was 2.34 mills on \$1, of which 1.4 mills was specially for common school purposes, 6.1 mills for canal purposes, including canal debt, and 7.1 mills for state general purposes.

These rates would yield the following amounts:

Total tax.....	\$8,619,748
State school tax.....	3,830,999
State canal tax.....	2,210,192
State general tax.....	2,578,557

The combined state and state school tax herein reported is \$8,918,853, an amount \$299,105 in excess of the total reported by the state controller. This difference is accounted for by the inclusion herein of stenographers' and shore inspection tax in several counties amounting to \$43,531, and by an excess of \$255,574 in the amount of state and state school tax of New York city. The amount actually levied for those purposes in that city was, as reported by the city controller and herein shown, \$4,179,273, which was raised in response to the call of the state upon the apportionment of 1889, while that city's share of the amount reported by the state controller for 1890 (\$3,923,699) was not required to be raised until 1891. In view of the fact that the state tax of that city apportioned in 1889 was actually levied upon the city's valuation for 1890, it is considered proper that the city's report should be used in preference to that of the state controller.

The state tax for canal purposes was first imposed in 1883, at which period the pre-existing canal tolls ceased under the provisions of a constitutional amendment voted by the people November 7, 1882, and which went into effect January 1, 1883.

The taxation levied in a village for purely village purposes in 1890 is included as a municipal levy of the town within which it is situated, the town, like the city, being treated as the unit of valuation and of taxation.

The real estate bears in 1890 practically 90 per cent of the burdens of taxation. In this connection the state controller and the state assessors say that fully \$2,500,000,000 of personal property within the state escapes taxation.

The figures of local taxation herein shown for 1890 were obtained through correspondence directly with the local officers; they embrace every place in the state having the power to levy a tax and have not before been published, so far as known to this office.

NORTH CAROLINA.

ASSESSED VALUATION.

The valuation of all property for assessment is made as of June 1 every 4 years, beginning with 1887. The assessment is made by assessors appointed for the purpose by the county commissioners, and all property is required to be listed at its true value in money.

The term "real estate" is declared to include not only the land itself, but all buildings, structures, and improvements of any kind thereon.

In the term "personal property" are included the usual chattels and money on hand, including all funds invested within 30 days before in United States bonds or other nontaxable property, credits, and the net income of the party for the previous year.

The following described property is exempt from taxation: property belonging to the United States, the state, or to any county or incorporated town used for public purposes; belonging to and exclusively used for the university, colleges, institutions of learning, the Masonic fraternity, order of Odd Fellows, and certain other benevolent organizations; schools for the education of youth, or support of the poor and afflicted; orphan asylums, churches, and burial lots, and \$25 of personal property of each taxpayer.

The chairmen of the boards of list takers and assessors of the several townships compose a board of equalization for each county, and they have power to increase or decrease the property as listed, the aggregate not to be diminished.

It seems that the value of the franchise of any railroad, as determined by the treasurer, the auditor, and the governor of the state each year, is included in the ordinary assessment, as is also that of the machine and repair shops, general office building, storehouses, and all real and personal property outside of the right of way and the depot grounds. The chairmen of the boards of county commissioners of the several counties through which any railroad runs constitute a board of appraisers and assessors of such railroads. To this board the railroad officials are required to report the number of miles of such railroad lines in each county of the state and the number of miles in the state, including the roadbed, right of way, and superstructures thereon, main and side tracks, depot buildings and depot grounds, section and tool houses, rolling stock and personal property necessary for the construction, repairs, or successful operations of such railroads. Upon this property and the capital stock the board places a value and certifies to the several counties, cities, and towns through which the road runs its share thereof based upon the length of road therein, but the railroads pay direct to the state the taxes levied except that imposed for school purposes. The valuation of that part of railroad property made by this board in 1890 amounted to \$18,438,298, but its distribution among the counties is not published. The amount therefore is not included in the detailed statement herewith, and the amount of personal property, \$74,793,444, should therefore be increased to that extent, making the total valuation \$235,300,674.

AD VALOREM TAXATION.

The board of county commissioners causes a revision of the tax list submitted to them to be placed in the hands of the sheriff for collection. It includes the amount due for state, county, and school purposes. The local taxes of cities are assessed and collected by their own officers.

The detailed statement herewith does not include the state tax levied on railroads to be paid direct to the state or that for schools collected by the counties, and which in 1890 was as follows:

Total	\$114,420
General taxes.....	46,096
Pensions to disabled confederate soldiers	51,552
School purposes	16,772

In addition to this tax for pensions to disabled confederate soldiers, the state levied in 1890 a 3-mill tax on general property for like purposes, the amount of which is included in the levy for state purposes on general property, as reported by counties.

The tables showing valuation by counties and those showing taxation for state, state school, and county purposes have been compiled from the report of the state auditor for the year ending November 30, 1891; those for valuation and taxation of minor divisions, including local tax for schools levied on general property, have been compiled from local returns furnished this office.

NORTH DAKOTA.

ASSESSED VALUATION.

The assessment of all taxable property is made as of May 1 in every even numbered year. In every odd year the assessor is required to assess such real estate as may have become subject to taxation since the last previous assessment and all new buildings whether completed or in process of construction if over \$100 in value, and in case of the destruction by fire, flood, or otherwise of any building of over \$100 in value to determine as near as practicable how much less the land upon which such building was situated would sell for at private sale in consequence of such destruction, and make return thereof to the county auditor.

The assessments include all property, real, personal, and mixed (except the property used in the operation of railroads, the assessment of which is provided for by a special law hereinafter referred to), and moneys, credits, and investments, subject to the following statutory exemptions: public schoolhouses, academies, colleges, institutions, and seminaries of learning, with the books and furniture therein, and the grounds attached to such buildings necessary for their property use, occupancy, and enjoyment and not leased or otherwise used with a view to profit; houses used exclusively for public worship, and the lots or parts of lots upon which such houses are erected; lands used exclusively for burying grounds or cemeteries; property belonging to the United States or to the state; buildings belonging to the counties used for holding courts, for jails, for county offices, with the ground, not exceeding in any county 10 acres, on which buildings are erected; lands and buildings belonging to any county, township, or town used exclusively for the accommodation or support of the poor; buildings belonging to institutions of purely public charity, including public hospitals, Young Men's Christian Association buildings, together with the land actually occupied by such institutions, not leased or otherwise used with a view to profit, and all moneys and credits appropriated solely to sustaining and belonging exclusively to such institutions; all land owned and occupied by agricultural societies not leased or used with a view to profit, not exceeding 80 acres; fire engines and other implements used for the extinguishment of fires, with the buildings used exclusively for the safe keeping thereof and for the meeting of fire companies, whether belonging to any town or fire company organized therein; public market houses, public squares, or other public grounds, town or township houses, or

halls used exclusively for public purposes, and all works, machinery, or fixtures belonging to any town and used exclusively for conveying water to such town, and public libraries and real and personal property belonging to or connected therewith.

The assessment of real estate must be made by the assessor upon actual view when practicable.

Every owner of taxable personal property is required to list it annually by classes as enumerated by statute, with the value thereof, and make oath to the correctness of the schedule. This requirement appears to be simply for the assistance of the assessor, for it is made the duty of that officer to determine and fix the true and full value of all items included in the schedule, as also that of all real estate. If any owner fails or refuses to make such list, or if any list is, in the opinion of the assessor, incorrect, the assessor is required to list and assess the personal property from the best information he can obtain, and to that end he is empowered to examine under oath any person in relation thereto.

The board of supervisors of each town, the recorder and president of each incorporated village, and the assessor, recorder, and mayor of each city (except certain cities whose charters provide for a board of equalization) are required to meet as a board of review on the fourth Monday of June annually and examine and see that all taxable property in their town or district has been properly listed and valued by the assessor.

The county commissioners, or a majority of them, with the county auditor, compose a board for the equalization of the assessments as between the several cities, towns, and districts in the county. They are not allowed to decrease the aggregate assessment of the county, but may increase it.

The state board of equalization, composed of the governor, state auditor, and attorney general, with one qualified elector from each judicial district of the state, appointed by the governor, by and with the advice of the senate, annually equalizes the assessments as between the several counties at the true and full value of all property included therein. Upon final adjournment of the board the state auditor is required to certify to each county auditor the results of its action, in order to enable the latter officer to finally correct the assessment books.

Under a law passed by the legislative assembly of Dakota, approved March 7, 1889, as amended by chapter 134 of the acts of the state of 1890, railroad companies may, in lieu of all ad valorem taxation, pay the state a certain percentage of gross earnings. If any railroad company fails to take advantage of the provisions of that act, chapter 135 of the act of 1890 provides for the assessment of its property and the distribution by the state board of equalization of the valuations among the several counties entitled thereto for taxation the same as other property.

As no railroad property has been reported by the several counties in their returns to this office, it is presumed all the railroads have complied with the provisions of said act of 1889, and that such property is exempt from all ad valorem taxation. One-half of the money collected under the act is retained by the state and one-half is apportioned to the several counties through which the roads run.

AD VALOREM TAXATION.

The taxation herein reported is that levied for 1890.

The rate of taxation for state purposes is 6.5 mills: 4 mills for general purposes, 0.5 mill for payment of interest on state debt, and 2 mills for common schools.

All county taxes are levied by the county commissioners at the time of their meeting in July of each year. The law provides that the amount of such taxes shall be based upon an itemized statement of the county expences, with an excess of 5 per cent. There is no county school tax, all local taxation for school purposes being levied by the several school districts and boards of education. Special taxes for local improvements levied upon property benefited by such improvements and poll taxes are not herein included.

The aggregate valuation of the state and of each county and the taxation for state purposes are as reported by the state auditor; the statistics of county taxation and all taxes for municipal and school purposes are taken from special returns made to this office by county, municipal, and school officers.

A number of the townships having 1,000 population and over are organized, but only for school purposes, and do not therefore appear separately reported herein.

OHIO.

ASSESSED VALUATION.

The present system of assessment of property for the purposes of taxation is that established by an act of the general assembly March 2, 1846, subject to various slight modifications since enacted.

A general assessment of all real estate is made once in 10 years by the district assessors. Since the act of 1846 and prior to the census year 5 general assessments of real estate had been made, namely, in 1847, 1854, 1861, 1871, and 1881.

The township and city assessors annually, on or before the third Monday of May, assess all taxable personal property, except that of railroads, and such taxable real estate as may have been omitted from the prior tax list. They are required also to appraise the increase in value of real estate caused by the erection thereon since the last assessment of new buildings or other structures of any kind over \$100 in value and to determine the decrease in value thereof in consequence of the destruction by fire, flood, or otherwise of any structures thereon of over \$100 in value.

Taxable property includes all property, whether real or personal, and all moneys, credits, investments in bonds, stocks, or otherwise of persons residing in the state, subject only to the following specific exemptions: public schoolhouses and houses used exclusively for public worship, the books and furniture therein, and the grounds attached to such buildings necessary for the proper occupancy, use, and enjoyment of the same and not leased or otherwise used with a view to profit; all public colleges, public academies, all buildings connected with the same, and all lands connected with public institutions of learning not used with the view to profit, not to extend, however, to leasehold estates of real property held under the authority of any college or university of learning of this state, provided, nevertheless, that all leaseholds or other estates of property whatsoever, real or personal, the rents, issues, profits, and income of which have been or hereafter shall be given to any city, town, village, school district, or subdistrict in this state exclusively for the use, endowment, or support of schools for the free education of youth without charge, are and shall be exempt from taxation so long as such property or the rents, issues, profits, and income thereof shall be used and applied exclusively for the support of free education by such city, town, village, district, or subdistrict; lands used exclusively as graveyards or grounds for burying the dead except such as are held by any person or persons, company or corporation with a view to profit or for the purpose of speculating in the sale thereof; property, whether real or personal, belonging exclusively to the United States or the state; buildings belonging to counties used for holding courts, for jails, or for county offices, with the ground, not exceeding in any county 10 acres, on which such buildings are erected; lands, houses, and other buildings belonging to any county, township, or town used exclusively for the accommodation or support of the poor; buildings belonging to institutions of purely public charity, together with the land actually occupied by such institutions, not leased or otherwise used with a view to profit, and all moneys and credits appropriated solely to sustaining and belonging exclusively to such institutions; fire engines and other implements used for the extinguishment of fires, with the buildings used exclusively for the safe keeping thereof and for the meeting of fire companies, whether belonging to any town or to any fire company organized therein; market houses, public squares, or other public grounds, town or township houses or halls used exclusively for public purposes, and all works, machinery, and fixtures belonging to any town and used exclusively for conveying water to such town; personal property of any description not exceeding \$50 in value for any one owner; funds raised and set apart for the purpose of building monuments to the fallen soldiers of this state and all monuments and monumental buildings, when erected, shall be forever exempt from taxation for any purpose whatever; lands on which are situate any prehistoric earthworks, and which have been or may hereafter be purchased by any person, association, or company for the purpose of the preservation of said earthworks, and are not held for profit, but are or shall be dedicated to public uses as prehistoric parks; shares and loans of any building and loan company advanced to its members except shares or stock upon which no loans have been made or money advanced by the company; property, real or personal, belonging to or which may hereafter belong to any incorporated post of the Grand Army of the Republic or Union Veterans' Union which is intended to create a fund to be used for the care and maintenance of indigent soldiers of the late war and the widows and orphans of those deceased, and all interest or income derived therefrom.

Individuals and corporations are required to list all taxable personal property at its true value annually and to return the list under oath to the assessor or county auditor.

The personal property of railroads is annually appraised by boards of valuation, consisting of the auditors of the several counties through which such railroads run, and is apportioned to the several counties and minor divisions.

An annual county board, composed of the county commissioners and county auditor of each county, equalizes the real and personal property and moneys and credits in each exclusive of cities of the first and second classes, and in each city of those two classes an annual city board, composed of the county auditor and 6 electors, performs a like duty. Such boards equalize the assessment of all personal property and moneys and credits, but as to real

estate they are restricted to the equalization of such as has been newly listed and that which has been increased in value by the erection of new structures thereon or decreased in value by the destruction of buildings by fire, flood, or otherwise, except in case of gross inequality, and then only upon reasonable notice to all persons directly interested and an opportunity for a full hearing.

The decennial county, city, and state boards of equalization meet after each decennial assessment of real estate and equalize the valuations thereof. The law minutely prescribes the duties of each board, its intent being to secure the listing of all real estate at its true value, due regard being given by the local boards to the relative situation, quality of soil, improvement, and natural and artificial advantages possessed by each tract or lot.

The shares of incorporated banks and property of railroads are annually equalized by a state board composed of the auditor of state, treasurer of state, and attorney general.

The valuation herein reported is that assessed and equalized for 1890, and therefore includes the real estate as revalued in 1881, with the increase of value thereof since added by improvements.

The report of the auditor of state for 1890 divides the total herein given in the following manner:

Total	\$1,778,138,477
Real estate in cities, towns, and villages	506,663,058
Real estate not in cities, towns, and villages	725,612,254
Chattel property (including moneys, credits, and investments)	545,883,165

AD VALOREM TAXATION.

The taxation herein reported is that levied upon the valuations assessed and equalized in 1890, and includes all the ad valorem taxes levied in the state, exclusive of special assessments upon specific property benefited by public improvements.

The rate of state taxation is 2.7 mills upon \$1 of valuation. Of this total rate, 1 mill is for the state common school fund, 0.3 mill for state debt or sinking fund, and 1.7 mills for state general revenue fund.

The total taxation for county purposes herein shown was levied for the following specific purposes:

Total	\$8,577,134
For general county purposes	3,457,523
For the poor	897,691
For bridges	1,623,421
For buildings	406,543
For payment of debt	927,333
For indigent soldiers	425,629
For roads	838,994

There is no county school tax, the entire taxation herein reported under "Levy for schools—county and minor division" being levied in the cities, villages, school districts, and special school districts.

All townships, cities, and villages having 1,000 or more population are herein shown separately, the townships including all districts and special districts and all cities and villages having less than 1,000 population.

In addition to the road taxes above shown, as included with county taxation, about \$500,000 is included in township taxation and classified as a minor division levy.

The valuations of real and personal property of the several counties and the total valuations of the several townships, cities, and villages, separately shown, are as reported by the auditor of state. For a segregation of the valuation of the several minor divisions as between real estate and personal property this office has relied upon special reports furnished by the auditors of the several counties and by local officials.

The taxation for all purposes has been computed in this office at the mill rates reported in the printed official tax lists of the several counties furnished by the county treasurers.

ASSESSED VALUATION AND AD VALOREM TAXATION.

OREGON.

ASSESSED VALUATION.

All property is liable to taxation unless expressly exempted therefrom.

The term "real estate" includes not only the land itself, but also all buildings, trees, and improvements thereon or pertaining thereto, and a mortgage, deed of trust, or other obligation whereby land or real property situated in no more than one county is made security for the payment of a debt, together with such debt, is for the purpose of taxation deemed and treated as real property.

The term "personal property" includes all household furniture, goods, chattels, moneys, and gold dust on hand or deposit, either within or without the state; all boats and vessels, whether at home or abroad, and all capital invested therein; all debts due or to become due from solvent debtors; all public or corporation stocks, and such portion of the capital of incorporated companies as is not invested in real estate.

The following classes of property are exempt from taxation: property of the United States or state; all property of the several counties, municipalities, and school districts used or intended for corporate purposes; the personal property of all literary, benevolent, charitable, and scientific institutions, and such portion of their real estate as may be actually occupied for the purposes for which such institutions were incorporated; all houses of public worship and the lots on which they are situated; burial grounds; public libraries; property of Indians not citizens; personal property of all persons who by reason of infirmity, age, or poverty may be unable, in the opinion of the assessor, to contribute toward the public charges, and the personal property of every householder to the amount of \$300.

The county assessor is required to make an assessment of all property every year and to make return thereof to the county clerk. It is made the duty of this officer to deduct the amount of indebtedness within the state of any person assessed from the amount of his taxable property; also that of any debt secured on real estate situated in no more than one county.

The county judge, county clerk, and the assessors of the several counties of the state constitute a board of equalization, whose duty it is, under certain restrictions, to increase or decrease the assessments as may be necessary for their proper correction.

The real estate of railroad corporations is assessed in the county where it lies in the same manner as the real estate of individuals. The value of the movable property, or rolling stock, is apportioned between the several counties of the state through which the road runs in the ratio that the number of miles of such road in each county bears to the total number of miles in the state, and it is made the duty of the proper officer of every road to send to the several clerks of the several counties annually a sworn statement of the amount and kind of such rolling stock owned by the road and the number of miles operated in the state and county. Upon such rolling stock the county assessor, school clerk, or other proper officer places its true value and includes the same in his assessment list with that of individuals.

The assessment herein reported is that published by the secretary of state in his report for the year ending December 31, 1890, and is for \$166,025,731. From this amount, however, there was deducted the amount of indebtedness and other exemptions, leaving the taxable property \$114,077,788, on which was levied a state tax of 4½ mills and the county and local levies. This valuation for taxation was distributed among the counties as follows: Baker, \$2,016,658; Benton, \$3,777,929; Clackamas, \$3,380,551; Clatsop, \$3,441,900; Columbia, \$945,849; Coos, \$2,149,450; Crook, \$1,208,860; Curry, \$486,290; Douglas, \$2,808,475; Gilliam, \$897,402; Grant, \$1,208,120; Harney, \$1,408,690; Jackson, \$3,281,092; Josephine, \$777,079; Klamath, \$1,022,915; Lake, \$1,395,988; Lane, \$4,918,999; Linn, \$6,490,028; Malheur, \$838,391; Marion, \$7,654,323; Morrow, \$1,220,033; Multnomah, \$89,595,525; Polk, \$3,345,755; Sherman, \$673,466; Tillamook, \$591,793; Umatilla, \$4,383,159; Union, \$3,406,255; Wallawa, \$725,418; Wasco, \$2,422,341; Washington, \$3,703,470; Yamhill, \$3,901,584. Total, \$114,077,788.

AD VALOREM TAXATION.

It is made the duty of the governor, secretary of state, and state treasurer each year to ascertain the amount of revenue necessary for state purposes and make apportionment thereof to the several counties for collection.

The statistics of taxation for counties and of the valuation and taxation of minor divisions, including school districts which raised the local school tax reported, have been obtained from special reports to this office.

PENNSYLVANIA.

ASSESSED VALUATION.

All ratable property taxable for state, county, or local purposes is annually assessed by the assessors of the several townships, cities, wards, and boroughs. The real estate, however, is assessed only once in 3 years (the last triennial assessment was made in 1888), and the valuation thereof then fixed continues until the next triennial assessment, subject to reassessment in the intervening years only in case it has been improved by the erection of buildings or by other improvements or lessened in value by fire or flood.

The ratable property taxable for state purposes only does not include real estate, but includes all stages, omnibuses, hacks, cabs, and other vehicles used for transporting passengers for hire except steam and street passenger railway cars; all annuities yielding over \$200; all mortgages; all moneys owing by solvent debtors, whether by promissory note or penal or single bill, bond, or judgment; all articles of agreement and accounts bearing interest; all public loans whatsoever except those issued by the United States or the commonwealth; all loans issued by or shares of stock in any bank, corporation, company, or limited partnership created or formed under the laws of the United States or the commonwealth, or any other state or government, including car trust securities and loans secured by bonds or any other form of certificate or evidence of indebtedness, whether the interest be included in the principal of the obligation or payable by the terms thereof, except shares of stock in any corporation or limited partnership liable to the capital stock tax levied directly by the state or received from the payment of such tax by the provisions of section 21 of act 332 of 1889; all moneys loaned or invested in other states, territories, the District of Columbia, or foreign countries; all other moneyed capital in the hands of individual citizens of the commonwealth, building and loan associations, and bank notes and notes discounted or negotiated by any bank or banking institution, savings institution, or trust company specially excepted. The aggregate valuation of ratable personal property taxable for state purposes in 1890, as reported by the secretary of internal affairs, is \$571,599,715, but it is known that this amount does not include the state valuation of Monroe and Potter counties, which failed to report to the secretary, and that the true aggregate is about \$574,000,000.

The property taxable for county and local purposes includes real estate, embracing all houses, lands, lots of ground and ground rents, mills and manufactories of all descriptions, all furnaces, forges, bloomeries, distilleries, sugarhouses, malthouses, breweries, tanyards, and ferries; personal property, including all horses, mares, geldings, and cattle above the age of 4 years, and offices and posts of profit, professions, trades, and occupations.

The property taxable for school purposes by the several school districts embraces all property taxable for state, county, and local general purposes as last assessed and adjusted by the county commissioners.

The following described property is exempt from taxation: churches, meetinghouses, or other regular places of stated worship, with the grounds thereto annexed necessary for the occupancy and enjoyment thereof; burial grounds not used or held for private or corporate profit; hospitals, universities, colleges, seminaries, academies, associations, and institutions of learning, benevolence, or charity, with the grounds belonging thereto, founded, endowed, and maintained by public or private charity; schoolhouses belonging to any county, borough, or school district, with the grounds belonging thereto; courthouses and jails, with the grounds belonging thereto, and all educational, charitable, and penal institutions supported by the appropriations annually made therefor by the state.

In addition to the above specified exemptions the laws of 1889 provide that in case any bank or savings institution incorporated by the United States or the commonwealth shall elect annually to collect from the shareholders thereof a tax of 6 mills on the dollar upon the par value of all the shares of said bank or institution and pay the same into the state treasury on or before the first day of March of each year the shares and so much of the capital and profits of such bank as shall not be invested in real estate shall be exempt from local taxation.

The boards of revision of cities and the county commissioners of each county, acting as a board of revision, revise and equalize the local assessments, subject to the right of appeal in the city of Philadelphia and in certain counties to the court of common pleas. This revision extends to all taxable property whether assessed for state or county and local taxation, but such revision of the valuation of property taxable for state purposes is subject to equalization by the state board of revenue commissioners, which is required to meet at Harrisburg at least once in 3 years and "ascertain and determine the fair and just valuation of the property of the cities and counties made taxable by law by adjusting and equalizing the same as far as possible so as to make all taxes bear as equally as practicable upon all property taxable for state purposes in proportion to its actual value".

The valuation herein reported is that locally assessed and adjusted in 1890 and reported by the commissioners of the several counties to the secretary of internal affairs of the commonwealth and published by that officer in his annual report of 1890, and includes all ratable property taxable for state, county, and local purposes except "salaries, emoluments of office, posts of profit, trades, occupations, and professions", and these exceptions were also excluded from the valuation of the commonwealth by the Tenth Census. Their assessed valuation was \$76,723,291 in 1890 and \$68,659,580 in 1880.

Household furniture and pleasure carriages, which were included in the valuation of 1880, are not included in 1890, the law providing for their taxation having been repealed in 1887.

The assessments reported do not include the capital of corporations, joint stock associations, or limited partnerships, gross receipts of transportation and certain other companies, net earnings of certain corporations and companies and gross premiums and assessments of insurance companies, upon which the state directly levies its tax, or the stock of banks or banking institutions incorporated by the United States or the commonwealth, which have elected to pay the state the 6-mill tax in lieu of local taxation, as above stated.

AD VALOREM TAXATION.

The taxation reported is that levied upon the assessment of 1890, and includes taxes levied for state purposes upon the ratable personal property charged with such taxation, taxes for general county and local purposes levied upon real estate and certain personal property hereinbefore mentioned, and school district and school taxes based upon all the ratable real estate and personal property and upon occupations.

The rate of taxation for state purposes in 1890 is a uniform rate of 3 mills on the dollar of the state valuation, which would produce, based upon the aggregate state valuation above named, about \$1,722,000, a sum slightly less than the total returned by the several minor divisions and herein reported.

The state does not retain all the collections arising from the taxation levied by it upon the ratable personal property, for under the provisions of a law passed by the general assembly in 1889 it returns to each county and to Philadelphia one-third of such taxes assessed therein.

An act of the general assembly approved May 9, 1889, provided for the annual collection by the commonwealth, through the commissioners of the several counties, of statistics showing the entire amount of taxes levied and collected or worked out in the several wards, boroughs, and townships for the maintenance of state, county, and local governments during the year immediately preceding the first day of June. Under the provisions of that law complete or partial reports from the commissioners of only 42 of the 67 counties, covering the year ending June 1, 1890, have been published by the secretary of internal affairs.

This office, however, through correspondence directly with the local officers, has obtained a report from every township, city, and borough of the taxation levied in 1890 for the various purposes named, and the figures are presented in detail for every place in the commonwealth having the power to levy taxes except the "poor districts", from which it has been found impossible to obtain reports.

There is no state or county tax specially levied for school purposes, but the state must, under its constitution, appropriate from its general revenue for such purposes a sum not less than \$1,000,000 annually. The general assembly at its biennial session in 1889 appropriated \$2,000,000 for each of the 2 years commencing June 1, 1889 and 1890.

The total taxation in 1880 reported by the Tenth Census, \$28,604,334, is exclusive of the local taxes of 116 townships and 2 boroughs, from which no reports were then received, and for the purpose of comparison the aggregate of 1880 should be increased an estimated amount of \$175,000, making the total taxation for that year \$28,779,334.
